- ◆ The number of females decreased in all regions. The largest percentage decrease was in the West region (-11.1%) while the smallest percentage decrease was in the Dublin region (-7.1%). *See table 1.*
- ◆ Amongst counties, the only percentage increase was in Kildare (+0.2%). The largest percentage decreases were in North Tipperary (-8.1%) and Sligo (-7.0%). *See table 3.*

The Live Register is not designed to measure unemployment. It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Benefit or Allowance. Unemployment is measured by the Quarterly National Household Survey and the latest figure, for March to May 2008, is 115,500 persons unemployed.

Live Register state figures for September 2008 were released on Wednesday 1st October 2008. In addition to geographical information, for the first time this release contains nationality data on the Live Register.

Background Notes

Source and scope of the Live Register	The Live Register is compiled from returns made directly to the Central Statistics Office by each local office of the Department of Social and Family Affairs. It comprises persons under 65 years of age in the following classes: <ul style="list-style-type: none"> ◆ All Claimants for Jobseekers Benefit (JB) excluding systematic short-time workers ◆ Applicants for Jobseekers Allowance (JA) excluding smallholders/farm assists and other self-employed persons ◆ Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.
Reference Period	The reference periods for the Live register results are as follows: September 2008 – 30 th August to the 26 th September September 2007 – 1 st September to the 28 th September
Descriptive articles	The compilation basis for the Live Register statistics from May 1992 onwards is described in the September 1992 issue of the <i>Statistical Bulletin</i> . The March 1980 issue contained a description of the basis used up to April 1992 while a more comprehensive treatment of Live Register statistics appeared in the “Report of the Inter-Departmental Study Group on Unemployment Statistics” (Stationery Office Dublin, Prl.7925, April 1979). The results of a special study of the differences between the Labour Force Survey (LFS) Estimates of Unemployment and the Live Register are contained in the December 1996 issue of the <i>Statistical Bulletin</i> .
Unemployment statistics	The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Allowance or Jobseekers Benefit. Unemployment is measured by the Quarterly National Household Survey (formerly the Annual Labour Force Survey).
Casual and part-time workers	The ‘casual and part-time workers’ figure is based on an estimate supplied by Department of Social and Family Affairs. People may apply for Jobseekers Benefit / Assistance if they only work for part of a week and be included on the Live Register.
Live Register Area Analysis	The basis of the area classification used in this release is the Department of Social and Family Affairs local office of registration. The areas served by Local Employment Offices do not correspond to specific geographic boundaries. Therefore, registrants at a given local office do not necessarily come from a particular region or area which can be precisely delineated. A classification by area of residence of persons on the Live Register was published until January 1989 but was then discontinued.
Nationality	Data in the nationality table is sourced from information collected by the Department of Social and Family Affairs on the nationality of claimants when they first sign on the Live Register.
NUTS2 and NUTS3 regions	The regional classifications in this release are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. The NUTS3 regions correspond to the eight Regional Authorities established under the Local Government Act, 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994. The NUTS2 regions, which were proposed by Government and agreed by Eurostat in 1999, are groupings of the NUTS3 regions.
