Tables

Table No.		Page
1	Persons, males and females at work aged 15 years and over, usually resident in the State, classified by means of travel to work at each Census since 1986	17
2	Children at school aged between 5 and 12 years, usually resident in the State, classified by sex and means of travel to school at each Census since 1986	18
3	Students aged between 13 and 18 years, usually resident in the State, classified by sex and means of travel to school or college at each Census since 1986	19
4	Students aged 19 years and over, usually resident in the State, classified by sex and means of travel to school or college at each Census since 1986	20
5	Average distance travelled (in kilometres) by workers, school children and students, usually resident and present in the State on Census Night, at each Census since 1986	21
	Population at work aged 15 years and over, classified by County of usual residence and means of travel to work	
6A	Persons	22
6B	Males	23
6C	Females	24
	Children at school aged between 5 and 12 years, classified by County of usual residence and means of travel to school	
7A	Children	25
7B	Boys	26
7C	Girls	27
	Students aged between 13 and 18 years, classified by County of usual residence and means of travel to school or college	
8A	Persons	28
8B	Males	29
8C	Females	30
	Students aged 19 years and over, classified by County of usual residence and means of travel to school or college	
9A	Persons	31
9B	Males	32
9C	Females	33
	Population at work aged 15 years and over, classified by County of usual residence and distance travelled to work	
10A	Persons	34
10B	Males	35
10C	Females	36

21A	Persons	67
21B	Males	68
21C	Females	69
22	Persons, males and females at work aged 15 years and over, usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by means of travel to work	70
23	Children at school aged between 5 and 12 years, usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and means of travel to school	71
24	Students aged between 13 and 18 years, usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and means of travel to school or college	72
25	Students aged 19 years and over, usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and means of travel to school or college	73
26	Persons, males and females at work aged 15 years and over, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by distance travelled to work	74
27	Children at school aged between 5 and 12 years, usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and distance travelled to school	75
28	Students aged between 13 and 18 years, usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and distance travelled to school or college	76
29	Students aged 19 years and over, usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and distance travelled to school or college	77
30	Persons, males and females at work aged 15 years and over (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by time leaving home to go to work	78
31	Children at school aged between 5 and 12 years (excluding those for whom this is not applicable) usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and time leaving home to go to school	79
32	Students aged between 13 and 18 years (excluding those for whom this is not applicable) usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and time leaving home to go to school or college	80
33	Students aged 19 years and over (excluding those for whom this is not applicable) usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and time leaving home to go to school or college	81
34	Persons, males and females at work aged 15 years and over (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by time taken to travel to work	82
35	Children at school aged between 5 and 12 years (excluding those for whom this is not applicable) usually resident in each Regional Authority Area, and present in their usual residence on Census Night, classified by sex and time taken to travel to school	83

General Details

Introduction

A Census of Population was taken on the night of Sunday, 23 April 2006, in accordance with the Statistics (Census of Population) Order 2005 (S.I. No. 786 of 2005)¹. An extract from the census questionnaire is reproduced in Appendix 1.

This twelfth volume of the detailed report contains results relating to travel to work, school and college covering the main demographic and socio-economic topics distinguished in the census.

The subsequent and final census volume will analyse the population by religion.

Coverage of the Census

The census figures relate to the *de facto* population, i.e. the population recorded for each area represents the total of all persons present within its boundaries on the night of Sunday, 23 April 2006, together with all persons who arrived in that area on the morning of Monday, 24 April 2006, not having been enumerated elsewhere. Persons on board ships in port are included with the population of adjacent areas. The figures, therefore, include visitors present on census night as well as those in residence, while usual residents temporarily absent from the area are excluded from the census count.

A limited number of questions, relating mainly to demographic characteristics, were asked in respect of usual residents who were temporarily absent from their households on census night. The responses to these questions enables a more precise picture to be built up on families and households by excluding visitors present on census night and including residents who were temporarily absent.

Conduct of the Census

A temporary field force consisting of 6 Census Liaison Officers, 40 Regional Supervisors, 400 Field Supervisors and some 4,400 part-time Enumerators carried out the census enumeration. During the four weeks before Census Day the enumerators entered details in respect of 1.77 million private residences and communal establishments in their enumerator record books. They simultaneously delivered blank census questionnaires to 1.5 million of these dwellings that were expected to be occupied on census night. Approximately 266,000 residences were vacant at the time of the census while in a further 30,000 cases the household was either enumerated elsewhere or temporarily absent from the State. The collection of completed questionnaires took place between Monday 24 April and Monday 22 May 2006.

Production of Results

Each enumerator first prepared and returned to the CSO a summary of the population in his/her enumeration area. These summaries formed the basis for the preliminary 2006 population results². The completed questionnaires for individual households were subsequently transported to the CSO for processing.

The population summaries, dwelling listings and enumeration maps for individual enumeration areas were checked for consistency and used to determine the boundaries of census towns and suburbs/environs of towns with legal boundaries. The capture and processing of the responses to questions on the census questionnaire proceeded concurrently.

¹ The Statistics (Census of Population) Order 2005 was made by the Minister of State at the Department of the Taoiseach in pursuance of powers conferred on him by section 25 (1) of the Statistics Act 1993 (No. 21 of 1993) and the Statistics (Delegation of Ministerial Functions) Order 2004 (S.I. No. 664 of 2004).

² Census of Population of Ireland, 2006: Preliminary Report (Prn. A6/0988), July 2006.

Publication of Results

The planned publication schedule is set out in Appendix 6. The schedule consists of the Principal Demographic Results and Principal Socio-economic Results, which provide the main census results, primarily at national level. More detailed data is provided in 13 subject matter reports. All of the tables published in these reports will be made available on the Central Statistics Office web site (www.cso.ie) using Beyond 20/20 interactive software. This software gives Internet users the ability to select and view data online and then download the same data to their computers.
