

BCI Long Form 2020

Building and Construction Inquiry 2020 (Including the Allied Trades)

The purpose of this survey is to measure economic activity in the construction sector of the Irish economy and facilitate political decision making at National and European level.

The Building and Construction Inquiry is a statutory statistical survey conducted each year under the provisions of the Statistics (Statutory Business Inquiries) Order 2017 (S.I. No 572 of 2017). Under Sections 26 and 27 of the Statistics Act 1993 you are obliged by law to complete and return this form. Any person who fails or refuses to provide this information or who knowingly provides false information may be subject to prosecution under Part VI of the Act. If your accounts will not be ready until later in the year please email our office and we will put reminders on hold until then.

Please round all amounts to the nearest Euro.
Please read the following carefully prior to completion of the questionnaire

A return must be completed in respect of each enterprise whose sole or principal activity during the year was in the construction sector or its allied trades. To check if the activity of your enterprise is relevant for this survey, please consult codes 4110 – 4399 at the URL below:
www.cso.ie/en/methods/classifications/nacecoder/

In the case of a group of companies, a separate electronic Questionnaire should be returned for each company within the group, parent or subsidiary, each in respect of its own direct activities. In certain circumstances with prior approval, a return that treats a group of companies as a single enterprise will be accepted. Transactions between companies within a group should be treated in the same way as transactions with third parties.
